The following legend is provided for FYI purposes only, and primarily for Samford use only. Students will rarely, if ever, change to one of the following majors using the Change of Academic Program form, nor can a student graduate under any of the following programs. Most are used for temporary purposes only, and often for one-time only situations.

Don't see a code listed for a particular program? A few codes won't be. Contact Jane at jeleask@samford.edu with questions.

See a code for a program that is now obsolete? That's possible, as codes are sometimes retired/replaced more quickly than others.

Codes for newly approved programs (in blue) will likely not be added to this list until this file is updated for the next academic year.

However, in some cases a code will be added once Board of Trustee approval has been obtained and the program is considered active.

Codes/programs that are being phased out will remain on this list for awhile, as students will still be allowed to complete them, and staff, faculty, and students may still need access to the codes and program titles for informational purposes. However, no new students will be admitted into these programs. Old/phased out programs will be in red and will display the last catalog year during which they were considered active and available for new admits.
