

**Congregational Health Program**

# **Covenant with Congregations**

**The Congregational Health Program is committed to:**

- Providing professional consultation throughout the development of the congregation's health ministry
- Providing opportunities for training and education for the Health Ministry Team and other congregation members
- Providing the congregation with a newsletter with information and resources
- Providing a comprehensive health survey to help identify the physical, emotional, and spiritual needs of adults in the congregation
- Providing a Health Ministry Team training session
- Providing quarterly Health Ministry Team Focus Group Meetings
- Providing resources for health ministry programs (i.e. speakers, information)

**The Partnering Congregation is committed to:**

- Developing a Health Ministry Team based on the information provided by the Congregational Health Program staff
- Participating in the Health Ministry Team training session provided by the Congregational Health Program staff
- Administering the comprehensive health surveys to adults in the congregation with the goal of having one-third of all adults complete the survey
- Administering a health ministry interest survey based on the information provided by the Congregational Health Program staff
- Attending at least two of the four quarterly Health Ministry Team Focus Group Meetings
- Having regularly scheduled Health Ministry Team meetings and providing the Congregational Health Program staff with information from these meetings and all other health ministry activities
